personalities.

Multiple Intelligence

2. Understand

CUE adopts activity-based modules which encourage children

Enhancement of Neural Pathways Intelligence is determined by the number of neural pathways in a

human brain. CUE aims to create new pathways & reactivate

dormant pathways through theme based activities, which facilitate

& problem solving skills, pushing the boundaries of their cognitive

analytical thinking, critical thinking, creative thinking, decision making

CUE's modules are based on the 8 multiple intelligences namely.

Bodily kinaesthetic, musical, logical-mathematical, interpersonal,

intrapersonal, linguistic, spatial & naturalist. CUE seeks to identify the

dominant intelligences in each child, which can determine the child's

inborn talents, innate nature & future possibilities in terms of personal

IQ vs EQ A potential leader is expected to have a balance of Intelligence quotient & Emotional Quotient, to be able to succeed in any path chosen. CUE focuses on comprehensive growth of Cognitive intelli-

gence & Emotional Intelligence, for children to be able to manage

emotions, empathize with people & develop into a potential leader

CUE modules provide plenty of opportunities for children to explore &

analyze their own intelligence, emotions & abilities, which is the'

stepping stone for self-assessment in various circumstances. Self

analysis is instilled as a habit in these sessions, so that a child is

equipped to handle himself & others, no matter what the circumstance, with confidence & clarity, which impact their responses **KEY BENEFITS**
